

Beauty by Viki Hibbs introduces Honey I Shrunk Body Wrap to the Salon!

Drop up to a dress size in 60 minutes!

Honey I Shrunk Body Wrap is a painless, effortless process that can successfully help remove inches in problem areas, such as thighs, buttocks and abdomen.

Honey I Shrunk is an inch loss body wrap system that works by lipolysis. Lipolysis is a revolutionary method of removing unwanted fat from the areas you want. The amount of fat reduction varies depending on a person's build, but lots of people can reduce by at least a dress size after just one treatment! Lipolysis breaks down inside the actual fat cells where triglycerides are changed to free fatty acids, which then allows them to be excreted in tissue fluid and onto the lymph vessels and out.
