

Press Release: Nutrition and Wellness Centre come 2nd place in 'Most Loved UK Weight Loss Business'

Earlier this year, the Nutrition and Wellness Centre in Bath has been in competition with other local weight loss businesses across the UK, going head to head to earn the title of 'The Most Loved Business in the UK' for their business type. For the 14 days leading up to Valentines Day consumers had the chance to review their favourite local businesses, reinvigorating and raising the profile of their local community. During the competition, which was called 'The 14 Days of Love', tens of thousands of reviews were added equating to one every eight seconds as the contest reached its crescendo.

The Nutrition and Wellness Centre in Bath did brilliantly, coming second place 'Most Loved Weight Loss Business' in the whole of the UK. This didn't entirely surprise us here at thebestofbath as we'd been getting used to seeing the great feedback for the Nutrition Centre run by the bright and very positive expert Nutritionist Heba Al-Zuhair.

So congratulations Heba on your great achievement, and hope that doing so well in this competition will help more people recognise your skill for helping people to achieve their weight loss goals, as well as other health benefits.
