

London Bus Services over Christmas and New Year 2015-16

The table below shows the general pattern of service for TfL bus services and Tramlink; there may be some exceptions. Please note that this information does not apply to routes operated on LSP conditions.

Night services are shown before the corresponding day service, in line with the normal conventions on this site. Note that these apply to N-prefix night routes only – precise arrangements for 24-hour routes vary, some following the day pattern at night and others the night pattern. Some day routes may have alterations to early and late journeys to co-ordinate with night routes.

Official information from TfL is at <https://tfl.gov.uk/campaign/festive>.

All information should be regarded as provisional at present and will be updated as further information comes to light. *Last update: 21 December 2015 (Many NYE timetables added; 176 NYE removed; some further details of non-standard operations added)*
