

Emergency Paediatric First Aid – Level 3 – Qualification 1-Day Course – (Minimum of 6 hours)

Course Information:

Unit 1 – Emergency Paediatric First Aid

The qualification is designed for learners with a responsibility for the care of children and babies and provides the knowledge and skills to be able to deal with a range of Paediatric first aid conditions and incidents.

The purpose of the qualification is for the learner to attain the knowledge and practical competence required to deal with a range of Paediatric First Aid situations.

The FAA Emergency Paediatric First Aid qualification is unit 1 of the two-day FAA Paediatric First Aid qualification. From gaining this Emergency Paediatric First Aid qualification learners could progress to completing unit 2 and being awarded the 2-day FAA Award in Paediatric First Aid.

Duration:

Total qualification Time (TQT) is 7 hours, with at least 6 Guided Learning Hours (GLH) in the classroom, plus some pre-course study. The qualification can be delivered over a maximum of a 4-week period, with each training session being a minimum of 2 hours.

Certification:

The learner is assessed both through practical demonstration and by oral questioning. The qualification is valid for three years from the date of achievement. It is recommended that the learner attends annual refresher training. The learner will need to complete the full course again to requalify for a further three years.

Course content provided via Nuco Training as an Approved Instructor.
