

“I'm really happy.
I was really surprised that
the first application I did
with my new CV, I was
asked to go to interview,
so I went for that, and was
offered
the job
right away.”

If you are worried about your
lack of confidence or self-
esteem we can help.

We aim to reduce the
amount of time it might take
you to find employment,
reduce the barriers that might
be holding you back and give
you advice on career routes.
