Whole Turkeys

For a fantastic Christmas centrepiece, you can't beat our Bronze Black Feathered Stag or Hen Turkey.

Bronzed Turkeys are a slow-growing breed, with a free-range lifestyle and natural diet that results in fantastic

texture and succulent flavour. The stag turkey has a more 'gamey' flavour.

Turkey's come with giblets so you can make delicious stocks and gravy. If you would like us to leave them out, just pop a note in the comments box on the order form.

Turkey Crown

Turkey crowns are the best option for those who want the white meat taken from the whole breast.

The legs of the turkey and the back bone are removed, leaving the breast meat sitting on the breast bone.

The turkey crowned is a great choice if you want a traditional turkey dinner on Christmas day, but without any mess or fuss.

Leg of Lamb Carvery

A traditional cut from the hind leg.

Our butchers trim the meat from the bone, then tie the joint back around the bone.

The bone adds flavour during roasting and helps conduct the heat evenly through the lamb leg joint, but is easily removed, making carving easy.

Pork Rack French Trim

Cut from the loin, back bone and chine bone removed, this five bone Pork Rack French Trim, is a delicate looking roast and perfect Christmas or a New Years lunch.

Bone Rib of Beef

This beautifully trimmed fore rib of beef is matured for depth of flavour and tenderness. Leaving the beef on the bone adds to the flavour when cooking and looks impressive on the table.

2-Bone (2-3Kg) or 4-Bone (approx 5Kg) are available.

Horseshoe Gammon

Boned and rolled, our 2-3kg horseshoe gammon is the best cut of gammon taken from the middle of the leg. Combined with natural marbling, the dry curing process results in a tender joint with amazing sweetness and flavour.

This carving joint makes a great centrepiece and, if there are any the leftovers make a delicious filling for sandwiches!
