

# INCREDIBLE CAKES

Our cakes are delicious, moist and full of flavour. You will love them! We use bananas to replace eggs. Because of that our cakes have more fibre than traditional cakes.

Our flour blend is unique and created by us. Also we do not add any salt to our cakes. We are always using our brainbox to create delicious new flavours.

## Mamma Mia! Vegan Pizza

The Incredible Margherita Pizza is delicious! The base is made using our premium flour blend to create the most perfect pizza. The sauce is made with organic chopped tomatoes, organic herbs and sea salt. The melty vegan cheese gives our Margherita Pizza an amazing flavour and texture. The Margherita Pizza is a frozen product. It's sold on a special board that allows the pizza to be heated in the microwave but still retain a crispy crust. Beware! After 4 minutes in the microwave the cheese will be hot as lava.

## INCREDIBLE PANINIS

In Italian, panini means sandwich. With that in mind we wanted our panini bread to be the ultimate sandwich vessel. It has a square shape and is not too thin, and is not too thick. Just slice down the middle to create the best sandwich vessel. We make them in 6 different flavours plus plain panini to help you create the most perfect sandwich.

## Incredible Mixes

We created three mixes for baking perfection. The Shortcrust Pastry Flour Mix is perfect for all things pie and biscuit related. The Coconut and Orange Pudding Mix is very versatile, as it can be cooked in the oven or the microwave. The crown jewel of our mixes is the Chia Roast Mix. It's the gluten free, vegan and nut free. It can be used to create the perfect meat free roast or stuffing substitute.
