The GreenDreams community food and greenspace festival is an annual event in the calendar for Worthing and Adur.

Offering something different, this event is designed and led by community based groups and organisations, bringing together a wide variety of local community and social enterprise groups involved in food projects, small scale local food production and greenspace initiatives from both Adur and Worthing.

From stalls offering heaps of local produce for you to try and buy, to lots of fun and exciting workshops and activities for all the family, including Macrame keyring making, environmental awareness activities, food workshops and so much more. This is a brilliant opportunity to find out what's going on in your local community and how you could get involved with lots of different local groups, so see you here...
