The Original GARDENA System is the basis for garden irrigation with over 45 years of experience. The genius lies in the system concept: Everything fits together perfectly and remains watertight.

## The right product for every application

From the tap to the hose to the connecting device – GARDENA provides the right product for every garden application!

### Hose Fittings

Original GARDENA System Fittings are all designed to be quick, reliable and watertight — for use between tap and hose as well as hose and appliance.

### Hoses

Hoses are not just a transporter of water from your tap to your plants and lawn, they are part of a mobile irrigation solution where everything fits together.

### Hose Trolleys/Reels

The right hose storage for every demand and garden size: Choose between trolleys, reels, wall-mounted boxes and portable devices for camping or boating.

### Nozzles/Sprayers

GARDENA has the right nozzle, sprayer, spray lance or garden shower for every application.

### Sprinklers

On large or small areas, GARDENA offers the ideal sprinkler for every garden and lawn.

### Perfect connection

Water-tight fit between hose and Original GARDENA System Fittings.

### Tap Connector

Threaded, unthreaded or indoor taps - we offer the right connector for every tap.

Loppers

## Pruning Lopper TeleCut

### Features

#### Powerful cut

The length-adjustable lever arms permit excellent lever action which means less force is required when cutting. In addition, higher branches can be reached easily.

#### Accurate and easy to operate – Non Stick extra

This precision-ground blade with non-stick coating and excellent cutting geometry ensures accurate cutting with low operating force.

#### Convenient and safe – the ErgoTec

Aluminium lever arms and ergonomically-shaped handles with soft components provide the required non-slip characteristics and guarantee easy handling and safe work.

#### Gentle on the wrists

Stop buffers made from special plastic protect the wrists.

GARDENA

ErgoLine

JAHRE GARANTIE • YEAR WARRANTY • ANS DE GARANTIE

#### Perfect ergonomics

The oval shaft profile lies perfectly in the hand and guarantees an ergonomic working posture. The extended plastic coating ensures comfortable, non-slip handling without transitions.

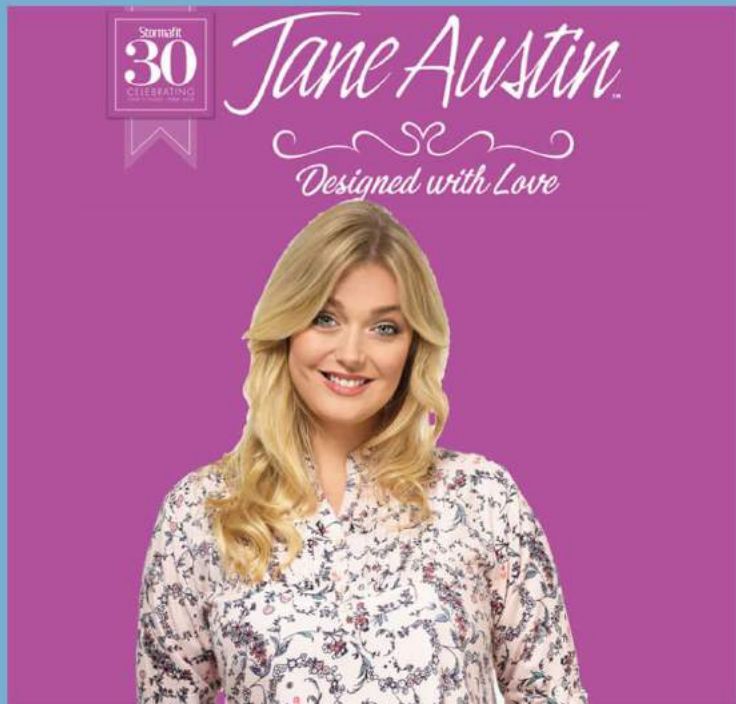

#### Wide D handle

The extra-wide and ergonomically shaped D handle can be held with both hands comfortably at any point. This ensures extra force and substantially more comfort.
