

International
Neurodisorders
and Therapy
Conference

London, UK
August 13-14, 2020

Dear colleagues,

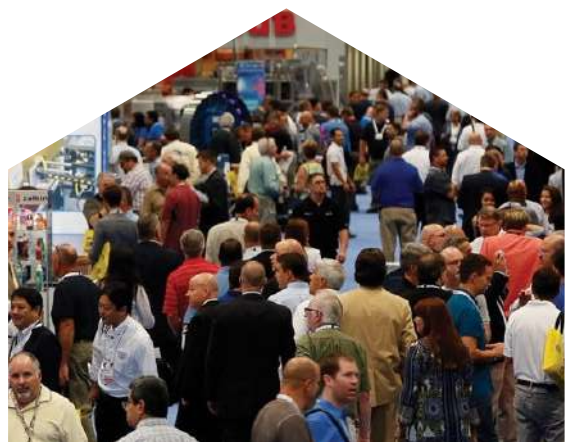

The International Neurodisorders and therapy conference welcomes you to London during August 13-14, 2020 to share your research findings, promote knowledge exchange and network with a broad audience in the field of neuroscience.

i-Neuro 2020 is an annual gathering for researchers, practitioners and educators to share the insights and discuss the recent innovations, research, concerns as well as practical challenges encountered, and development to improve patient outcomes in those suffering from neurological disorders. iNeuro is the premier venue for neuroscientists to present emerging science, learn from experts, forge collaborations with peers, explore new tools and technologies, and advance careers.

The iNeuro Operating Committee invites the submission of abstracts covering a broad range of cross-cutting topics, including the Recent Research and Advancement, Functional Disorders and Behavioral Neurology, Alzheimer's disease and dementia, Parkinson's Disease, Ethics and society, Neuro-oncology Brain Wellness and Aging and therapy for information exchange and a fertile ground for the establishment and fostering multidisciplinary collaborative studies.

Join us and witness the booming industry by participating at i-Neuro 2020 and give your career and business access to new opportunities from throughout the world.

We look forward to seeing you in London

iNeuro is the premier venue for neuroscientists to present emerging science, learn from experts, forge collaborations with peers, explore new tools and technologies, and advance careers.

Past Conference Highlights

Alan Gintzler, Downstate Medical Center, USA, opened the conference and addressed the **keynote-"Chronic pain management in the era of the opioid crisis: a road map provided by animal studies of endogenous opioid antinociception"**

(For iPharma 2019)

Pamela J. Hornby, Janssen R&D, United States delivered an interesting talk on **"Intestinal serine protease inhibition increases FGF21 and improves metabolism in obese mice"**

(For iPharma 2019)

"Screening and High-Throughput Analytical (SHA) Laboratory at Merck Research Labs (MRL)" was presented by **Michael Brendan Hicks**, Merck & Co., USA

(For iPharma 2019)

Thomas Heinbockel from Howard University College of Medicine, USA presented on **"Cannabinoids Regulate Neural Signaling and Synaptic Plasticity in Circuits of the Central Nervous System"**

(For iPharma 2019)

Hao Cai from Genentech, USA presented on **"Translational Pharmacokinetics and Pharmacodynamics of Human Interleukin-22 IgG Fusion Protein for Treatment of Inflammatory Diseases"**

(For iPharma 2019)

International Neurodisorders & Therapy Conference

i-Neuro 2020 is an annual gathering for researchers, practitioners and educators to share the insights and discuss the recent innovations, research, concerns as well as practical challenges encountered, and development to improve patient outcomes in those suffering from neurological disorders.

Who you will meet

- Researchers, Scientist and Neuroscience experts
- Academia: Professors and Students
- Medical Companies
- Research and Technical Department
- Policymakers and Influencers
- Business Professionals and Representatives

Benefits of attending

- Explore Future Business Opportunities
- Meet and collaborate with Pioneers in the field of Neuroscience and Neurology
- Reinvigorate your relation with peers
- Network & get inspired by leaders

Highlights

- Recent Research and Advancement
- Functional Disorders and Behavioral Neurology
- Alzheimer's disease and dementia
- Neurotoxicity, Inflammation, and Neuroprotection
- Brain Wellness and Aging
- Neuro-oncology
- Neuropharmacology

97%

Rated the content of the Conferences as valuable

89%

Rated the previous events as excellent

95%

Rated the event as important to their business

96%

Would recommend the Congress to others

iNeuro 2020 offers unparalleled business, research opportunities and access to new markets in the field of Neuroscience. Be on the cutting edge of new and often yet unreleased information and discover an area that piques your interest.

The conference's global goal is to bring Academicians, Research & Development Executives, Scientists, Industrialists, policy-makers to deliberate upon and disseminate innovative ideas for deepening the understanding of the effects of brain disorders on health and channelizing the knowledge into innovative solutions for patient care.

iNeuro 2020 is one stop juncture to all those who are planning to expand their business through various channels of franchise and distribution.

- Recent Research and Advancement
- Functional Disorders and Behavioral Neurology
- Alzheimer's disease and dementia
- Neurotoxicity, Inflammation, and Neuroprotection
- Brain Wellness and Aging
- Neuro-oncology
- Neuropharmacology
- Ethics and Society

91%

rated the content of the programme as good

85%

of the delegates gained new knowledge to implement in their practice

87%

said the programme met their expectations

Join us and witness the booming industry by participating at iNeuro 2020 and give your career and business access to new opportunities from throughout the world.

About London

Standing on the River Thames, London has been a major settlement for two millennia, its history going back to its founding by the Romans, who named it Londinium. London is a leading global city, with strengths in the arts, commerce, education, entertainment, fashion, finance, healthcare, media, professional services, research and development, tourism and transport all contributing to its prominence.

London contains four World Heritage Sites: the Tower of London; Kew Gardens; the site comprising the Palace of Westminster, Westminster Abbey, and St Margaret's Church; and the historic settlement of Greenwich. Other famous landmarks include Buckingham Palace, the London Eye, Piccadilly Circus, St Paul's Cathedral, Tower Bridge, Trafalgar Square, and The Shard. London is home to numerous museums, galleries, libraries, sporting events and other cultural institutions, including the British Museum, National Gallery, Tate Modern, British Library and 40 West End theatres.

Testimonials

Thank you for your message. I enjoyed the conference and was glad about the positive feedback that I received after my talk

Thomas Heinbockel
Howard University College
USA
(iPharma USA, 2019)

The conference last week was terrific and very informative. Thanks again for all the hard work that went into it.

Steven J. Durham
Labaton Sucharow
Italy
(iPharma USA, 2019)

I would like to thank you and the organising committee for inviting me to deliver a talk. It recieved good attention and applause. Was an excellent experience for me. The meeting was well organised and venue was good.

Salma Naseem
Yeovil District Hospital
United Kingdom
(iWomen Health 2019)

iPharma 2018 offered everything we needed, from Drug Discovery and Development to Pharma Marketing, PharmaManufacturing, Industrial Pharmacy. It gives all participants a productive conference experience. We'll come back year after year

Ye Xu
Jilin Medical University
China
(iPharma 2018)

Thank you for organising the conference, it was done very well indeed.

Pek Joo Teoh
Obstetrician & gynaecologist
Australia
(iWomen Health 2019)

Thank you for sending the photographs. Also a special mention in thanking you for all the efforts and arrangements made by you for this conference.

Roopa Verghese
The Centre of Bioethics
India
(iWomen Health 2019)
