Meet the Ambassador of Knowledge

ICTM conference feels proud to be the platform for the Ambassador of research. The scientists, the doctor, the professor, the scholar and the learner from all over the world under one roof creating an epic in the field of traditional medicine and ethnomedical research.

Wind-up the Competency Gap

As a speaker, at this conference, you have a chance to wind up the competency and communication gap by having direct interaction with many scientists, professors, scholars and students. This conference will open the doors of networking and collaborating.

Resolve Complexity of Health care

The tending issue of all the time is health care management and we believe the time you spent, the efforts you made and then the research you had can nurture the universal health coverage and can reduce the health consequences.

Ocean of Knowledge

This conference can be well-titled as 'ocean of knowledge' where you can sail the boat of your research and pick the pearls of knowledge, making you richer and well-informed in your respective field. It empowers the strength to narrow the complications associated in this field and to have a quick fix with a better and longer solution.

Enrich Yourself

You can consider this conference as the answer for your curiosity of learning, discovering, exploring and researching by discussing, sharing and receiving the knowledge with the world-renowned speakers. Enrich yourself and your colleague with new curing strategies in the field of traditional and ethno medicine.

Globalise Your Institution

Launch your institution in front of renowned personalities from universities, industries and academia. This conference will set a platform for enduring partnership and globalise commercialization and production.

TOP REASONS TO ATTEND

Rejoice the New Environment

It's always amazing to meet the new people with different perspective of cultures and customs but with the same area of interest. Say good bye to the frazzle moments and rejoice yourself with new air and fresh environment. Establish the new but exciting relations and gather the memorable moments with your fellow colleagues.

Exercise Your Brain

Let the brain eventually enjoy the exercise of thinking, pondering, and making the logical statement with an opportunity of 3 days of the conference in presence of key note speakers, oral and poster presentation. Share your research and experience the profound impact of your research with numerous Q & A sessions and panel discussion.

One Stop Many Destinations

The journey of the conference is informative and enjoyable. It has one stop but with many destinations, to describe the few of more like, sharing and receiving the knowledge, meeting and headlining the research, building new partnerships and speeding up the networking process.

GLIMPSE OF ICTM 2019

TESTIMONIALS

Cornelia Butler Flora
Kansas State University, USA

I found the conference well-organized with a good diversity of papers and posters from around the world. An excellent opportunity to learn!

Elena Rakosy-Tican
Babes-Bolyai University, Romania

One of the most interesting conferences, having a huge number of presenters.

Monica Ruffini Castiglione
University of Pisa, Italy

It is a very challenging and well organized meeting, good to have attendees from all over the world.

Samir C. Debnath
St. John's Research and Development Centre, Canada

The conference is very good and scientists from many countries attended. We all enjoyed the conference very much.

Leif Sundheim
Norwegian Institute of Bioeconomy Research, Norway

Congratulations with the very successful conference Plant Science and Molecular Biology 2017. The lectures and posters at the conference were on «State of the art» level. Also, I met many interesting colleagues. I presented a Keynote lecture and served as chairman throughout day 2 of the Conference.

Antonio Domenech-Carbo
University of Valencia, Valencia, Spain

The meeting is very interesting. The complete view is towards different aspects of the plant science and it's a fruitful meeting for all the participants.

Abdul Razaque Memon
Usak University, Turkey

It is a pleasure for me to attend this conference on Plant Science and Molecular Biology. This is my first time attending this meeting in Valencia. The first day was very good, we have different topics on Plant Physiology, Plant Biochemistry and also Molecular biology. We had a lot of good interaction with several groups and many scientists from different countries. We talk different topics especially on scientific contribution on this plant science and molecular biology and I am sure next meeting will also be well organized and I wish success for this conference.

WHY PARIS??

Paris is the capital and the most populous city of France. One of the most breath-taking works of architecture : The Eiffel Tower, The Notre Dame, Place De La Concorde, Arc De Triomphe, The Louvre, Les Invalides are the most famous pieces of architecture that attracts the tourists to feast their eyes upon in this city. Paris has been one of Europe's major centres of finance, commerce, fashion, science, music, and painting. The city is a major rail, highway, and air-transport hub served by two international airports. Paris is especially known for its museums and architectural landmarks: the Louvre was the most visited art museum in the world in 2017, with 8.1 million visitors. Paris is a dream place to visit for the art and architecture lovers.
