

HOW MUCH ARE YOU PREPARED TO LOSE?

OVER 200,000 HOMES HAVE ALREADY BEEN SOLD TO FUND CARE. This has left thousands of families across the country saddened; their family home gone to pay for essential services at their loved one's hour of need. The sad truth is that this could happen to any of us- without the right protection, your home and savings that you have worked so hard to earn could be at risk.

According to BBC research, the number of elderly people in 24 hour care is set to double by 2035. The care crisis is not going away- and it's you and your loved ones set to lose out. If you own a home and have savings, you are at risk of to third parties, claims against your estate and more.

How can you protect your estate?

It all starts with a Will. By putting proper safeguards in place early, you may be able to minimise the impact third party claims have on your estate, ensuring all that you have worked hard for goes to those you love- and not those you don't!

Accord Legal Services are accredited members of the Institute of Professional Will Writers. We provide cost effective, tailor-made estate planning solutions to suit any circumstances.
