

North Notts Association of National Trust Members

Tricks of Light & Colour

A talk by Bob Massey

An entertaining and interactive talk on optical illusions that fool the eye and brain. Do we each interpret the images in Bob's slides in the same way? Why do our brains interpret them differently? Bob will discuss some of the reasons behind these differences.

The talk will be preceded by the Association's AGM commencing 7.20pm.

Wednesday 15th April at 7.30 pm

At The Crossing, Newcastle street, Worksop, S80 2AT

Members with Talks subscription – Free

Basic subscription Members and Visitors - £7.00
