HELP YOUR PET THROUGH THE
FIREWORK SEASON

Description/Terms and Conditions

Fireworks season may be great fun for people; however it can also be a very stressful time for pets. The key to helping your pet through the season is good preparation. • Plug in a Feliway Diffuser for cats well before festivities to increase their sense of security. Feliway works by mimicking the properties of the feline facial pheromone. Cats use these to familiarise themselves with their environment. Plug in an Adaptil Diffuser for your dog. Dog Appeasing Pheromones released by the diffuser encourage a feeling of being at ease. • Use Zylkene to help manage stress. Zylkene is a non-prescription food supplement available for dogs and cats. It is a natural product that has a calming influence. It can be given throughout the firework season • Give your pet extra bedding to burrow into so it feels safe. Clent Hills Vet Group is offering 20% off Feliway, Adaptil and Zylkene products during October and November and there is plenty of further advice available from the team at both our Bromsgrove and Hagley surgeries.

This voucher has no cash alternative and is not transferable. It cannot be used in conjunction with any other offer or promotion. Photocopies will not be accepted. Rights are reserved to refuse custom and withdraw this offer at any time.
