Description/Terms and Conditions

In light of the risk of flu and COVID-19 co-circulating this winter, it is now absolutely essential to protect your staff members and not lose out on any more business.

Seasonal viruses affect around 15-20% of the population. On an individual basis, absence through flu costs businesses an average of £522 per person. Prestwich Pharmacy, a local and independent chemist that takes pride in looking after the community would like to offer a special workplace vaccination offer to the members of the Best of Bury.

A pharmacist can come to your premises and administer the immunisation of 15+ staff members in one sitting £20 per employee.

However, if there are less than 15 staff members, you can use the chemist's easy to navigate booking system, found here:

Workplace Vaccinations are a smart investment in your business. Let's keep both your employees and business healthy.
