Description/Terms and Conditions

We have been making our Devon wood oil since the early 1990's.

This product is unlike any of the commercial wood oils from the nationally known companies because we use more expensive raw materials chosen for their eco credentials, in particular we use pure turpentine from the turpentine tree instead of petroleum solvents.

We also add an ultra-violet filter which is not found in many proprietary brands.
Devon oil is particularly good on furniture, doors and floors.

On bare, previously untreated wood simply apply 1 generous coat, leave for 10 minutes to soak in and then wipe off any excess with a dry cloth.

Devon wood oil brings wood to life!!

£17.71 for one liter.
