31/12/2018

Can only be used at
The Dental Spa
8 Darwin Court, Oxon Business Park,
Shrewsbury, Shropshire
SY3 5AL.

Tel: 01743 343433

Description/Terms and Conditions

ARE YOUR DENTURES MAKING YOU FEEL OLD?

"To construct aesthetically pleasing dentures with comfort and function is one of the hardest tasks in dentistry. We are not only replacing lost teeth, but also compensating for bone loss and very often sunken facial profiles which can age patients up to 10 years prematurely. Careful, calculated consideration of each individual's anatomy is essential for outstanding results to be gained in this delicate area. This can now be achieved "in house" at The Dental Spa without the need for relaying messages backwards and forwards between dentist and technician with instructions (and patient wishes) quite often being "lost in translation"

WHAT IS A CLINICAL DENTAL TECHNICIAN AND WHY WOULD I SEE ONE?

A Clinical Dental Technician is an experienced Dental Technician who has taken additional qualifications to enable him to treat patients in a Clinical setting. A CDT can therefore directly treat, create and fit a complete set of dentures to patients who have experienced total tooth loss. From impressions through to the final fitting, we guarantee the entire case is carried out by our Clinical Dental Technician Mr Ian Taylor both in surgery and back in the laboratory.

SO WHAT HAPPENS NOW?

You don't need to be a registered patient of the Dental Spa to make an appointment with Ian. Please give one of our patient advisors a call to book your appointment. If you have none of your own natural teeth, consultations with Ian are free of charge, so what are you waiting for?
