### Description/Terms and Conditions

The Fire and Ice Facial, otherwise known, as the 'Hollywood Red Carpet Facial' is the secret weapon of Hollywood's top names, known in LA as the 'Red Carpet Treatment' for its instant brightening, tightening and smoothing effect.

Much more than a salon facial or a peel this is an intensive clinical treatment designed to resurface the skin, reduce fine lines and wrinkles, smooth and soften, while encouraging cellular renewal and repair.

Is it for me ?

The Fire & Ice treatment is suitable for all skin types, however if you are using any retinol or glycolic products, these should be stopped for one week before and after treatment. If you are using Roaccutane, this should be stopped for six months prior to having the Fire & Ice treatment.

Are there any side effects?

Mild redness may be experienced by a few patients but generally you can return to your daily activities straight away. As your skin has been newly resurfaced, we recommend using a mild non-abrasive cleanser or other mild product for five days following the procedure and also wear sunscreen and avoid prolonged or direct sun exposure.

This facial is currently £100 instead of £120 and you will also receive £65 worth of free products. Please call the clinic to discuss and book your treatment.

This voucher has no cash alternative and is not transferable. It cannot be used in conjunction with any other offer or promotion. Photocopies will not be accepted. Rights are reserved to refuse custom and withdraw this offer at any time.
