Description/Terms and Conditions

Let's be honest, we all know as motorists we are required to carry out our own lights and levels checks, weekly or even daily if we are going on a journey, but in reality, who always remembers to do them? Whilst our 25 point check does not alleviate your responsibilities as a driver, what they do offer is a pair of professionally trained eyes looking over all the components that are visible without being dismantled. This checks that key safety related items such as tyres, lighting, windscreen and wipers, braking, oil and fluid levels plus a number of other safety critical components and systems are fully functional.
