Description/Terms and Conditions

This will show you your face in 3D and highlight wrinkles, pigment, redness, spots, pore size and give your skin age (if you want to know). We can then track your progress with your treatments and products.

Please book with reception- allow 15 minutes to have your scan before your appointment.

"Skin health and glowing skin is more important than you realise, giving you a more youthful appearance. Monthly collagen stimulating treatments that do this, and also tighten the skin, along with medical grade products are one of the best investments you can make in your appearance."
