Allen Ford
Rothwell Road , Kettering, Northants
NN16 8UP.

Tel: 01536 512 464

Description/Terms and Conditions

After having been driven several areas ideally need checking on your vehicle, including tyre pressures, fluid levels and your battery's power.

Just a fortnight with little or no driving is enough time for some vehicles' batteries to become flat. It takes around 20 minutes for the alternator to replace the energy used to start your vehicle, so if you only do short trips (e.g. to the local supermarket or garden centre), your battery may never really be getting the full charge it needs.

Our Visual Health Check covers the areas below.

Tyres Brakes Lights Wiper Blades Exhaust Battery While your vehicle is in with us for your Free Vehicle Health Check, you can add an Air Con. & Ventilation Antibacterial Clean and a Pollen Filter Change for just £59.99!

This voucher has no cash alternative and is not transferable. It cannot be used in conjunction with any other offer or promotion. Photocopies will not be accepted. Rights are reserved to refuse custom and withdraw this offer at any time.
