Description/Terms and Conditions

Code Ninjas® is the world's largest and fastest-growing kids' coding franchise, with hundreds of locations in the United States, Canada, and the United Kingdom. Book your FREE session now to see what the fun is all about!

At our Dojo, based next to St. Martin's Church in the heart of Epsom, kids learn to code while building their own video games. Our Dojos are not just coding classes, they gain creativity, problem-solving, critical thinking, and STEM skills in a fun, safe, and inspiring environment. Learning to code can equip your child with valuable skills such as problem-solving, logical thinking, and creativity, which we believe are essential for success now and later in life.

We have many different classes and levels of learning, covering children of many ages.
